

Simple programming by using light ID stickers

STEP 1

Leave one light ID sticker on the electronics, stick one in the supplied light list and transfer one to the project plan.

Circuit assignment	Testgruppe	Light-ID	Name	Additional information	Type of circuit	
					DL	BL
Light 1	1	LCMF00BA1	GF Corridor, RZL		X	
Light 2	2	LCMF07E73	GF Exit, RZL		X	
Light 3	1	LCMF07E81	Staircase, SL			X
Light 4	2	LCMF00AB7	Staircase, SL			X
Light 5	1	LCA0CA420				

STEP 2

Transfer of the glued luminaire list into a digital format including the circuit type. The programming is carried out by a technician from din safety technology.
